IDENTIFIERS *California Achievement Tests; *New York (New York)

ABSTRACT

This report summarizes the results of the March, 1978, reading examination that was administered to New York City public school pupils in grades 2 through 9 (with the exception of those in high schools). Section A delineates New York City student reading achievement compared to national norms. Section B compares pupil reading achievement by school district, while Section C compares pupil reading achievement by schools within each district. Section B includes data pertinent to non-English speaking students. Analysis of the results indicates that in four of the eight grades tested, the means were at or above grade norms and that the citywide percentage of pupils reading at and above grade level was 43.0. It is noted that the 1978 examination was the California Achievement Test, which was not the reading test employed in the previous year, and that direct comparisons should not be made between the 1977 and 1978 results. Moreover, it is cautioned that a change in the achievement test utilized calls into question direct year-to-year comparisons since the emphasis on particular tests may be more appropriate to the New York City public school curriculum. Acknowledgments

This report was prepared by the Office of Educational Evaluation.

The members of the Office of Educational Evaluation responsible for the context, tabular presentations, and editing within the report were:

Mr. John J. Falletta, Senior Statistician
Mr. James Sheffield, Statistician

Administrative assistance in tabulating, typing, and proofreading, was supplied by: Mrs. Nerida Acevedo, Ms. Jean Ann DeSimone, Mr. Joseph Nelson, Mrs. Josephine Spitalnick, Ms. Anna Vivirito, Mr. James Walsh, Mrs. Jean Williams.

Introduction

In recent years, standardized reading tests have been administered annually in all grades from the second through the ninth in all schools except high schools. The reading tests are administered for two reasons: first, to satisfy a stipulation of the Community School District Act of 1970 to rank all schools according to proportion of pupils reading at and above grade norm and, second, to provide central, district and school administrators with objective bases for instructional, organizational and personnel policy decisions.

The reading tests used are standardized on a nationwide pupil population and contain test items measuring vocabulary and reading comprehension. The latter is defined as the ability to understand general themes of selection, to derive meanings of words in context, to recall significant details and to infer some new fact from the information given.

This report contains a summary of the results of the March 1978 citywide reading test administered in Grades 2 through 9 in all New York City Public Schools except high schools.

The report presents test results for comparative analyses at two levels: Community School Districts within New York City and Community Schools within Districts.

The test results data are presented in means (arithmetic averages), medians (mid-points), and percentages. They are presented in this variety of forms to afford the reader the opportunity to make those analyses which best meet his needs.

Section B of the report contains descriptive and achievement data for all Community School Districts in New York City. Districts may be compared on reading achievement level proportions, and Non-English speaking proportions. Citywide averages in those categories are also available.

The data in Section C of the report provide the reader with the same comparative bases for analyses within any specific district. All schools within a district are

listed in numerical order by level -- elementary and then intermediate/junior high schools.

Analyses of the March 1978 Citywide results indicate that in four of the eight grades tested the means were at or above grade norms. In addition, the citywide percentages of pupils reading at and above grade level was 43.0. The significance of the 43.0 percent figure can best be understood by noting that the nationwide expectancy of achievement in any standardized group test is such that 50 percent of the students will be at or above grade and 50 percent will be below the grade level.

The citywide mean scores for each of the grades tested in March 1978 are presented in the body of Table 1 in Section A. Since the reading tests were given in March, the sixth month of the school year, the norm (i.e., the expected average score of students) in Grade 4, for instance, would be 4.6. The mean figures in Table 1 should be interpreted in the light of this statistical concept.

All figures within this report are based on the March 1978 administration of the California Achievement Test, which was standardized in 1977. Since this was not the same as the 1977 test (Comprehensive Tests of Basic Skills, standardized in 1973) no direct comparisons ought to be made between the 1977 and 1978 results.

Scores in the 1978 test are generally higher - perhaps because the standardization date is more recent, and, nationally, reading test score norms have been falling throughout the period from 1973 to 1977. In view of this, on a more recently standardized test, a student might achieve a score "on grade level" with fewer correct answers. Moreover, the change in the achievement test utilized, in itself, calls into question direct year-to-year comparisons since the emphasis on a particular test may be more appropriate to the curriculum and instructional practices of the New York City Public Schools.

Section A

New York City Pupil Reading Achievement Compared to National Norms

Table 1. Distribution of Citywide Reading Means and Medians and Number Tested 1978

Table 2. Distribution of Citywide Pupil Proportions at Various Reading Levels and N.E. Pupils Excluded From Testing 1978

Table 3. Pupil Reading Achievement Levels, Citywide by Grade 1978

The test results data in Tables 1, 2 and 3 that follow present both mean and median reading grade scores, proportion of pupils at various reading levels for all grades combined, and proportion of pupils at various reading levels by grade.

TABLE 1

DISTRIBUTION OF CITYWIDE READING MEANS AND MEDIANS
AND NUMBER TESTED

1978

GRADE	NUMBER TESTED '78	TOTAL READING *MEANS '78	TOTAL READING **MEDIANS '78
2	69,657	2.7	2.5
3	66,719	3.5	3.4
4	66,627	4.7	4.4
5	67,170	6.0	5.7
6	68,536	6.6	6.1
7	67,949	7.2	7.0
8	70,799	8.5	8.3
9	30,403	9.5	9.7
	507,860		

* Mean: The arithmetic average - the sum of all scores divided by the number of scores.

** Median: The midpoint of an array of scores ranging from high to low.

TABLE 2

DISTRIBUTION OF CITYWIDE PUPIL PROPORTIONS AT VARIOUS LEVELS AND NON-ENGLISH PUPILS EXCLUDED FROM TESTING

1978

ACHIEVEMENT LEVELS	PROPORTION OF PUPILS
(1) At and Above Grade	43.0
(2) Up to 1 Year Below Grade	20.1
(3) 1-2 Years Below Grade	17.9
(4) 2 Years or More Below Grade	13.5
(5) Non-English	5.5

Section B

Community School Districts Within New York City

Tables 4a-4h, 5, 6 and 7 that follow present descriptive pupil data for each Community School District Within New York City.

Tables 4a-4h, indicate the range of percentages in pupil achievement levels.

Table 5 combines all grades in the achievement levels and lists the number of pupils who were tested and excused because they were Non-English speaking.

Tables 6 and 7 present the district data for means and medians for each grade.

Section C

Community Schools By District

The following section contains 32 reports, one for each community school district. For each district, summary tables are presented listing pupil achievement percentages for all grades combined in that district. In addition, means and medians for each school within the district are presented.

Results for each district are presented in numerical sequence except District 32 which is placed after District 23, since District 32 is located in Brooklyn.
